OBJECTIVE

To work in globally competitive environment on challenging assignments that shall yield the twin benefits of the job satisfaction and a steady-pace professional growth.

EDUCATION

2019	B.R Harné College of Engineering & Technology (Mumbai University) Bachelor of Engineering in Mechanical 7.10/10
2015	RJ College/ Maharashtra State Board HSC 68.31%
2013	Hindi High School/ Maharashtra State Board SSC 79.45

PROJECTS

• Study and Fabrication of Sky Saver

This machine can be used to escape from multi-story building in case of fire. This machine does not require any external power source. It includes simple type of Watt governor in combination of multiplate clutch. In this we use centrifugal governor for speed control and clutch for braking purpose so we are able to achieve a constant down going speed.

• Generation of electricity using Pelton Wheel.

In this we made Pelton wheel using steel spoon. Which rotates against the head for required to produce the number of revolution. The wheel is mounted on the shaft which is connected to generate which convert the mechanical energy into electric energy.

SKILLS

- Leadership
- Grasping Capacity
- Problem analysis and problem solving skill
- Honesty
- Ownership

ACHIEVEMENTS & AWARDS

- Best poster award for project in inter college competition

LANGUAGE

- English
- Hindi
- Marathi

INTERESTS

- Manufacturing
- Machine Design
- Energy System
- Material Science
- Cricket

PERSONAL DETAILS

- Date of Birth : 10/10/1998
- Marital Status : Single
- Nationality : Indian
