Projects

Project 1

QUIKR CAR PROJECT

Period:

October 2015 - August 2016

Project Summary

Carnation is exclusive partner for Car inspection service to online classified portal www.quikr.com. Carnation uses its own android based Inspection application and lead management platform to operate in real time environment. Carnation expertise in auto industry further strengthen the car inspection vertical in terms of training modules and on ground training of Inspection Engineers. Commenting on the tie-up Carnation Auto

Chairman and MD Jagdish Khattar said: “Quikr is a market leading brand in the used cars market and is rapidly growing this category. Our aim is to offer credible car inspection services that demonstrate to buyers and sellers the benefits of a comprehensive independent quality report.”

120 point checkup

- Satisfactory TAT
- Comprehensive Inspection report

Project 2

HEADS UP DISPLAY

Period:

August 2014 - June 2015

Project Summary

A head-up display or heads-up display, also known as a HUD, is any transparent display that presents data without requiring users to look away from their usual viewpoints. The origin of the name stems from a pilot being able to view information with the head positioned "up" and looking forward, instead of angled down looking at lower instruments. A HUD also has the advantage that the pilot's eyes do not need to refocus to view the outside after looking at the optically nearer instruments.

Training and Certifications

Solidworks, Ansys, Central institute of tool design, 2013 Diploma in cadd, cadd centre, 2012
